Compliance - Safety Audit Program

## Industrial, Manufacturing and Facility Safety Audits & Inspections

**SHARK CERTIFICATION PVT. LTD.** A leading Certification, consultancy Training & Auditing Company is carrying out **Safety Audits** for industries and other institutions. SCPL audit report offers a comprehensive guidance in improvement on health, safety and environmental issues for industries & Institutions viz. Explosives, electrical, petrochemicals, chemicals, cement, power sectors, fertilizer, insecticide, pharmaceuticals, paper and also for engineering and automobile industries, construction sites, hotel, hospital, residential and business buildings, offices, malls, schools, premises, etc.

A safety audit is a tool that can be utilized to improve safety and attitudes in the workplace. A safety audit is an inventory or checklist of items specifically geared to your operations. It allows you to take action, correct hazards, and determine the appropriate actions to take to achieve the desired safety goals. Measuring your safety performance also provides a baseline to compare future safety initiatives.

The audit is carried out as per **IS 14489 : 1998 (2002)** on "Code of Practice on Occupational Safety & Health Audit" to check the compliance with the **Factories Act, 1948** and Rules for respective states, The Environmental Protection Act & Rules, the CEA Regulations, the Explosives Act & Rules and other important Indian Statutory requirements and Standards. **(1) National Building code of India. (2) IS:2190:2010 - Fire Extinguisher. (3) IS:3844 - Hydrant & Hose Reel (4) IS-9457:2005 - Safety Colors & Safety signs**

## What is your desired outcome?

Determine the effectiveness of your safety program ♦ Identify compliance deficiencies ♦ Suggest safety solutions ♦ Improve the environment and personnel safety ♦ Reduce incidents and injuries ♦ Increase workplace safety pride ♦ Protect your valuable asset...your employees.

## What we cover...

### Legal & Statutory Requirements

Verifying the Registrations, Availability, Validity with reference to various Acts applicable on particular Industry
